

FIRSTBITE DENTAL

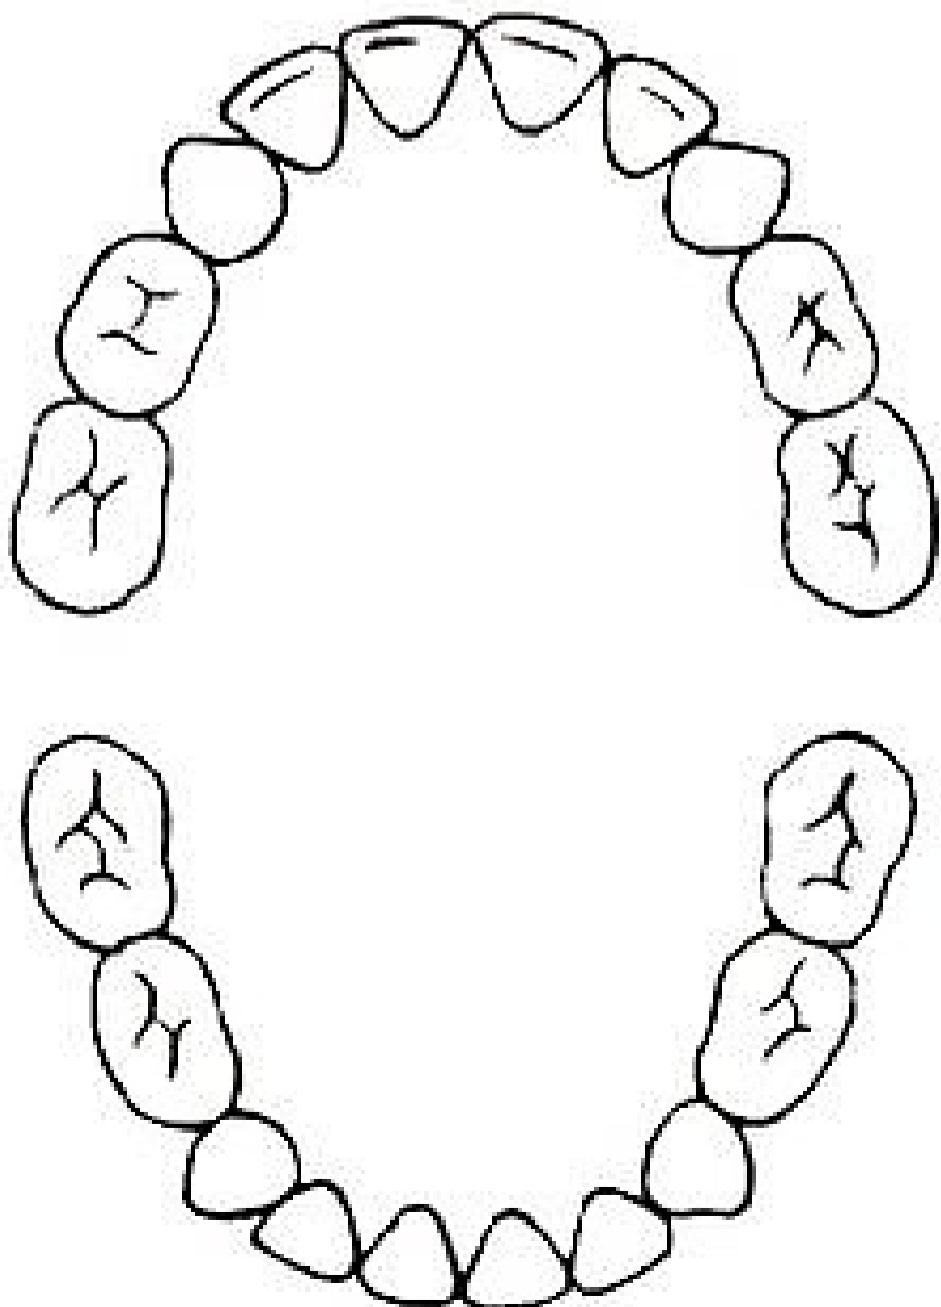

Activity sheet

Connect the Dots

Count your teeth

Circle the teeth you have lost

Depending on your child's age:

- A gentle, but thorough examination of the teeth, jaw, bite, gums, and oral tissue, to monitor growth and development and to observe any problem areas

- A gentle cleaning, which includes polishing teeth and removing any plaque, tartar build-ups and stains

- Small in-the-mouth X-rays to determine if there are any developing holes.

- Large out-of-mouth X-rays to determine the position of all teeth, and any potential underlying issues.

- A demonstration on how to properly care for your child's mouth and teeth at home, with an assessment of the need for fluoride or tooth mousse.

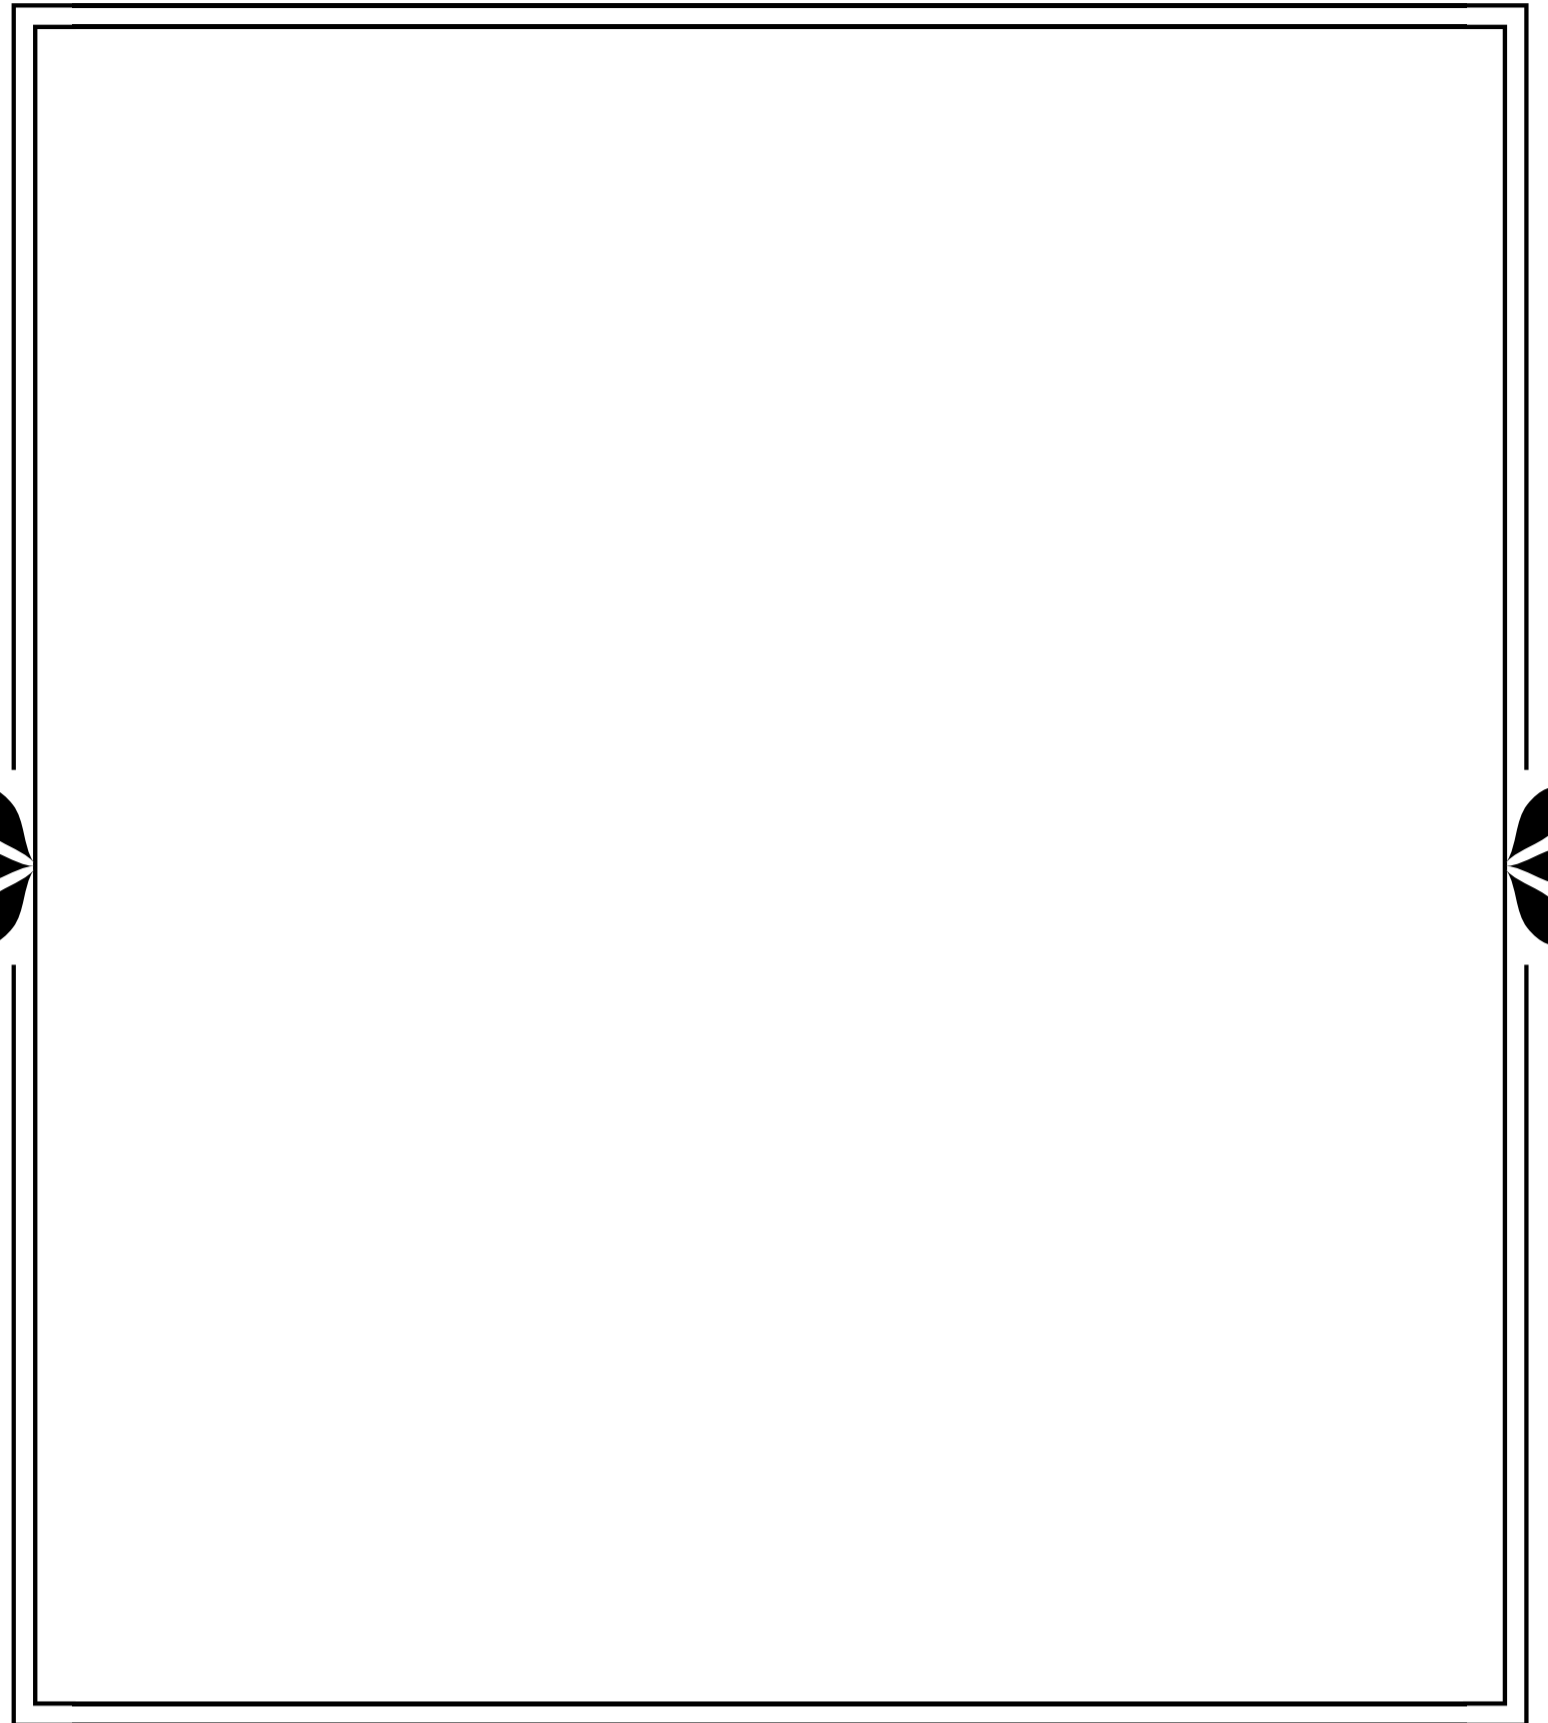

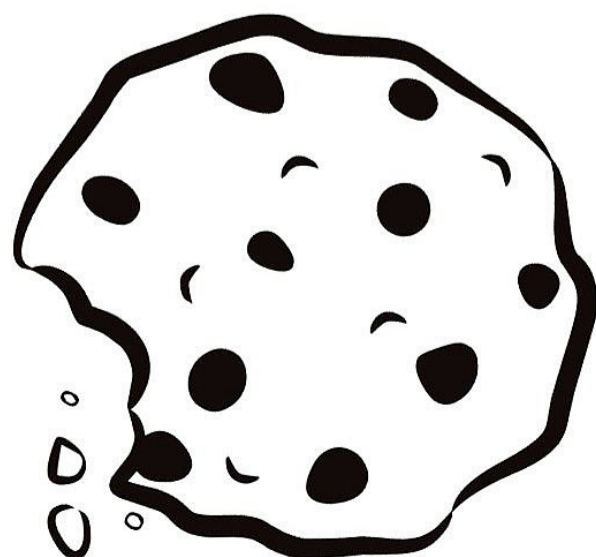

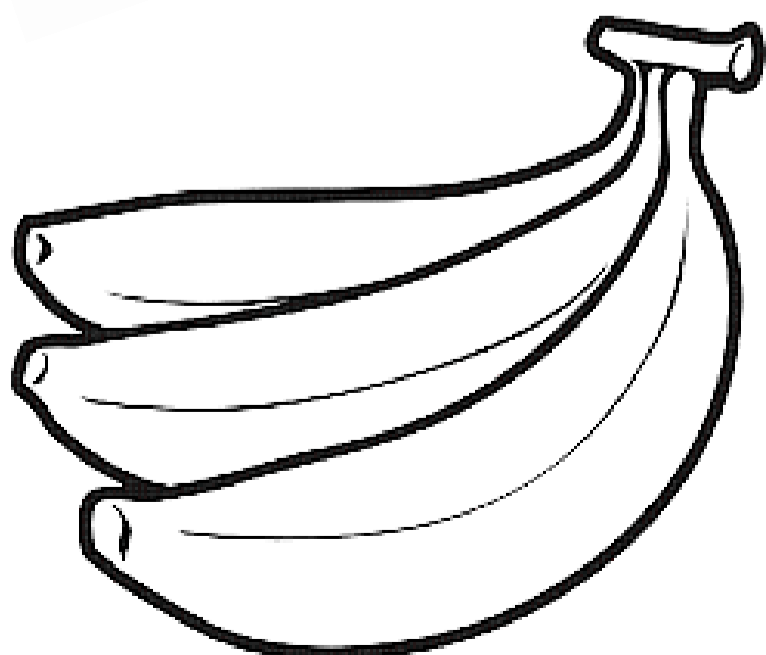

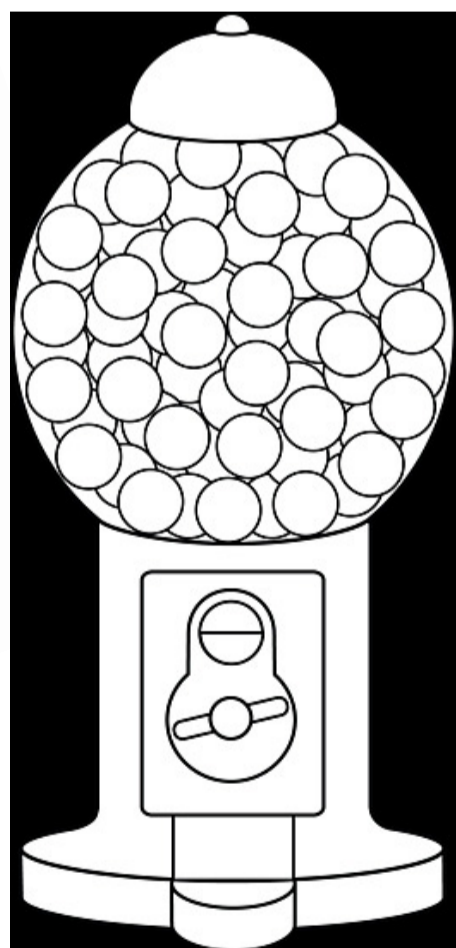

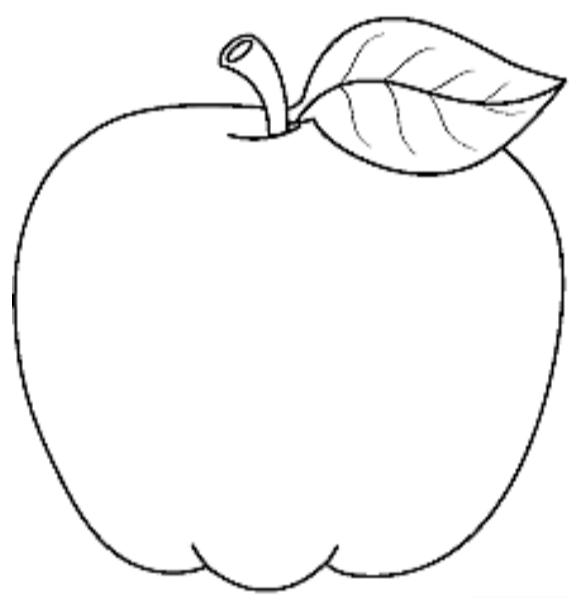

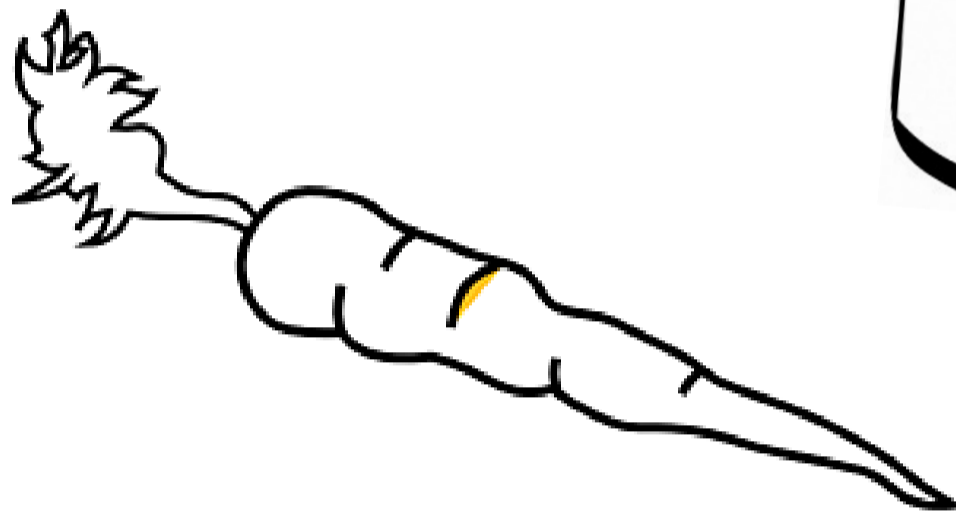

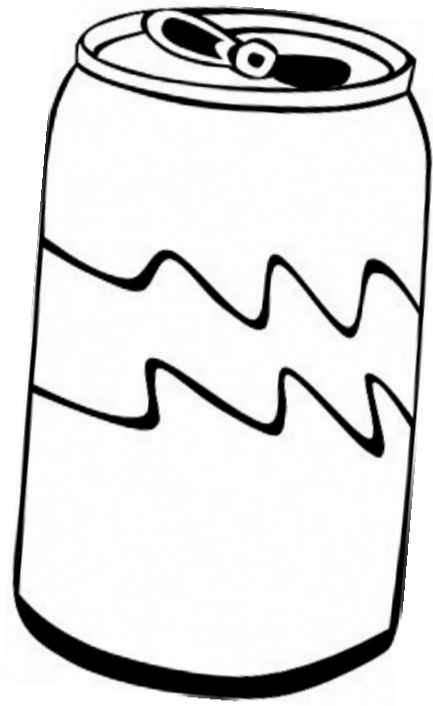

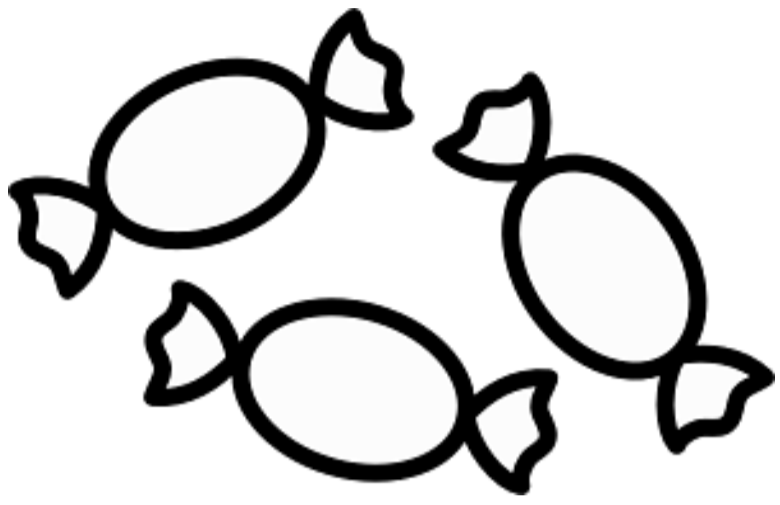

- Nutritional counselling

- Preventative treatments such as 'Fissure Sealing;
